

The Barron's 400 Index, or B400, seeks to track the performance of the most fundamentally sound companies with the best growth prospects in the U.S. The objective of B400 is to provide a benchmark to investors seeking long-term capital appreciation through diversified exposure to U.S. equities. The Index uses fundamental analysis and a growth at a reasonable price (GARP) methodology to select the top 400 constituents in the U.S. equity universe after filtering for liquidity and diversification over size and sectors. B400 was created jointly by Barron's, MarketGrader, and Dow Jones Indexes, and launched on the cover of Barron's in 2007.

Index Rules

Underlying Universe

All companies domiciled and listed in the United States.

Objective

Designed to serve as the basis of investment funds providing access to investors to some of the most promising stocks in the U.S.

Weighting

The Index is market capitalization weighted.

Rebalance Frequency

Semi-annually on the third Friday of March and September.

Selection Criteria

Stocks are selected based on their overall MarketGrader fundamental score on a scale of one hundred (100). Score is calculated based on 24 fundamental factors across Growth, Value, Profitability and Cash Flow.

Market Cap Requirements

All selections must have a minimum float-adjusted market cap of \$250 million. At least 25% of all selections (100 companies) must have a total market cap above \$3 billion.

Liquidity Requirements

All selections must have a minimum three month average daily traded dollar volume of \$2 million.

Sector Limits

The number of selections in a single economic sector cannot exceed 20% of the

Performance
