

# MarketGrader India All-Cap Growth Leaders Index

The MarketGrader India All-Cap Growth Leaders Index consists of the 80 most fundamentally sound companies with the best growth prospects in India, whose shares are listed in the country's national exchanges or in the United States. Its objective is to give investors access to the best companies in the world's fastest growing large economy without overpaying for their shares. Constituents are selected across all market cap segments and all economic sectors after they have passed rigorous size and liquidity filters.

## Index Rules

### Investable Universe

All companies domiciled in India that have received a MarketGrader Score consistently for at least six months, whose shares are listed on the National Stock Exchange, the Bombay Stock Exchange or on U.S. national exchanges.

### Regulatory Requirements

Stocks are ineligible for Index selection if they are included in the 'Red Flag List,' maintained and published by the National Securities Depository Limited (NDSL) of India, or on the 'Breach List,' maintained by the Central Depository Services (India) Limited (CDSL), both of which govern foreign ownership limits of Indian securities.

### Size Requirements

All companies must have a minimum total market capitalization of USD 150 million on the Index selection date.

### Liquidity Requirements

All stocks must have a minimum three-month average daily trading volume of USD 2 million as of the selection date.

### Selection Criteria

All Index constituents are selected based on their overall MarketGrader (MG) Score. Built on a scale between zero (0) and 100, this MG Score is based on 24 fundamental indicators across MarketGrader's four rating categories: Growth, Value, Profitability and Cash Flow. All indicators and the final MG Score are calculated daily for all companies under coverage.

### Weighting

The Index is re-weighted at each rebalance date based on each constituent's free float market capitalization, with the total weight per constituent capped at 5% of the entire Index.

### Rebalance Frequency

The Index is reconstituted and rebalanced semi-annually, after the close of trading on U.S. exchanges on the third Friday of March and September.
